

Velocity Box Network Survey

Demographics:

School/District: _____
Technical Contact: _____
Phone: _____
E-mail: _____

The address you would like us to send the *Velocity Box*:

Network configuration for the Velocity Box:

Please assign a static IP address on your network which is accessible by all lab computers that will be connecting to the box. This assigned IP address must also have access to the internet.

Static IP: _____
Subnet mask: _____
Gateway: _____
Primary DNS: _____
Secondary DNS: _____

Notes: _____

Special considerations:

- If your network uses any port other than the default 80 for internet access, please specify in the notes.
- If you are using ISA server, web proxy, or any web filtering software/hardware please include this in the notes, for it can affect the connection.

Box configuration:

- After the survey is reviewed and concerns addressed, the box will be configured with the settings provided and mailed to the address specified.
- Testing and further configuration may be necessary if there are connectivity issues.

Questions:

- Send your survey or questions to: velocitybox@letsgolearn.com or fax to 510-558-8838
