Student Profile Summary

Numbers Skills Subtest..... Score (Range: K to High 5th):
 Examines the learner’s understanding and abilities in the Numbers and Operations strand. This category is typically called number sense. However, all fractions operations have been pulled out and tested in the fractions strand.

Fractions Subtest..... Score (Range: K to High 5th):
 Measures the learner’s ability to recognize fractions as well as perform fraction operations

Measurement Subtest..... Score (Range: K to High 4th):
 Assesses a learner’s knowledge of measurement skills. Many of these skills will require exposure to definitions and/or English language measurement terms. Computational skills required for 4th grade-level measurement items.
